L'escalier à vos mesures !

**Lumina**

# Le Lumina

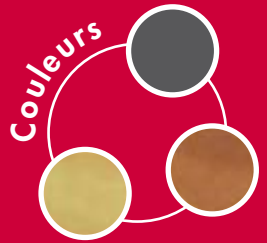

Structure composée d'éléments métalliques emboîtés de façon télescopique pour le réglage de la hauteur.

**Largeur** de 800 ou 850 mm.

**Girons** de 200, 225, ou 250 mm.

**Couleur** standard noir gaufré, nombreuses formes possibles sur mesure.

**Marches en hêtre massif**, vernis naturel ou blanchi.

L'escalier à vos mesures !

Lumina

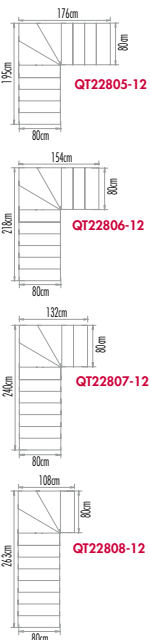

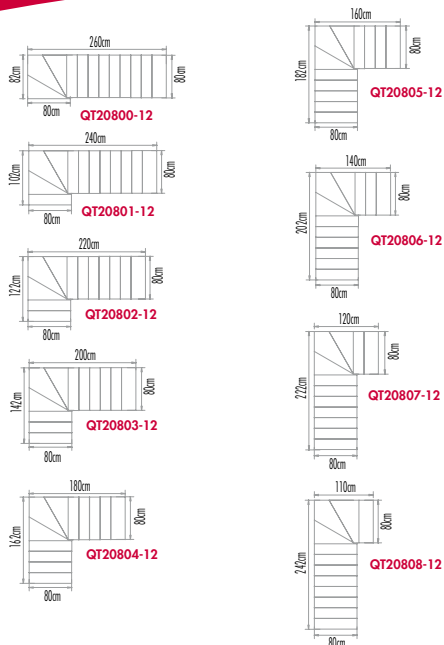

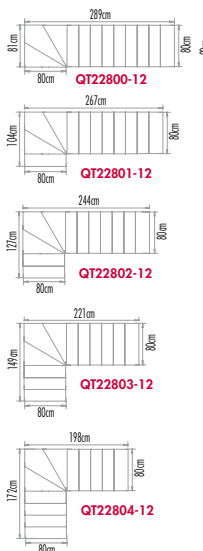

# Modèle Tournant

Les modules cylindriques adoucissent les lignes et confèrent ainsi à cet escalier une étonnante adaptabilité à l'espace environnant. Il est aussi à l'aise en version droite qu'en quart tournant simple ou double, haut ou bas.

**Giron :**  
200 mm  
**Largeur de marche :**  
800 mm

**Giron :**  
225 mm  
**Largeur de marche :**  
800 mm

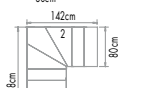

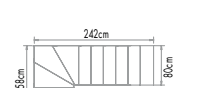

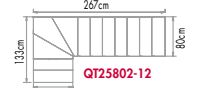

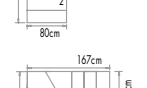

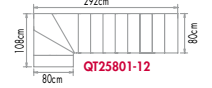

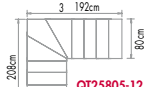

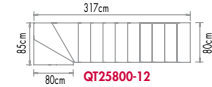

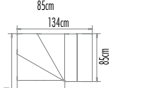

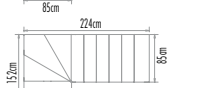

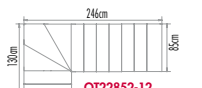

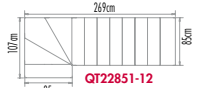

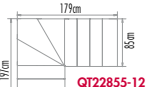

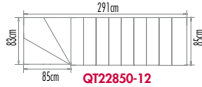

# Configuration pour 12 marches

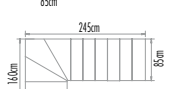

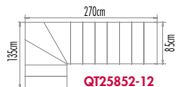

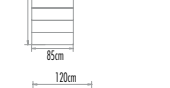

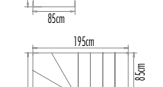

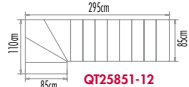

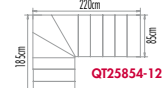

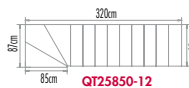

(pour les autres configurations, rajouter ou retrancher aux étendues au sol la valeur du giron par marche)
